RICO JOHNSTON · GOOD FIT MORTGAGE SOLUTIONS · SUDBURY, ONTARIO

Market: Sudbury and Northern Ontario · Platforms: Facebook, Instagram, LinkedIn, Google · Voice: Warm, grounded, unpretentious

P O S I T I O N I N G

Rico is not a rate broker.
He builds the mortgage that *fits the life*
someone is actually living.

A Good Fit mortgage is one that makes sense for the life someone is actually living. Not the best rate. Not the most product features. Not the fastest close. The mortgage that fits.

Every piece of content in 2026 expresses this in some way. When every other broker is posting "best rates in Ontario," Rico is asking "is this the right mortgage for your life?" That is the gap he occupies.

//

*Is this the right mortgage
for your life?*

— THE ANCHOR QUESTION

N O R T H E R N O N T A R I O I D E N T I T Y

Sudbury is not Toronto. This must be *felt* in every post, not just stated.

The Sudbury buyer profile is specific. Content reflects this reality, every time.

A U D I E N C E

W H A T D E F I N E S T H E M

Mine workers	Glencore and Vale employees. Shift work, variable income, strong union benefits. Mortgage structure has to flex around rotations.
Public sector	Teachers, nurses, City of Sudbury employees. Stable income, pension considerations. Health Sciences North and school boards anchor the workforce.
Northern ON pricing	Genuinely different from Southern Ontario. A good income goes further here, but the financing landscape has its own nuances.
Multigenerational	Families who have been in Northern Ontario for generations, buying in the same communities their parents did.

C O N T E N T A L W A Y S R E F L E C T S T H I S

Not aspirational Toronto starter-condo content. Not "here is how to break into the market" panic content. Northern Ontario has a different relationship with homeownership. More grounded. Less anxious. Rico's content reflects that.

What Good Fit Looks Like.

The anchor series, owned by Rico alone.

A monthly anonymized client story showing what a Good Fit mortgage looks like in practice. First-person plural from Rico's perspective. Always ends with what "fit" meant in this specific case.

Not: "We saved our client 0.15 percent on their rate."

Yes: "This family needed a mortgage that worked around shift rotations and an upcoming parental leave. Here is what we structured."

STORY ANGLES FOR 2026

The mine worker

Needed flexibility built into the payment schedule. The Good Fit was about the structure, not the rate.

The teacher in Capreol

Buying her first home. What fit looked like for her budget and timeline.

The couple refinancing to help their parents

The conversation that led there. The Good Fit was the family arrangement, not the product.

The self-employed contractor

Sudbury based. Income looked complicated on paper. Fit meant finding the lender who could read the whole picture.

Northern Ontario family life is the *context* for everything.

Rico's family life is authentic brand content. Not staged. Not aspirational. Real. These posts exist because they are true, not because they are a strategy.

A Saturday in Sudbury

What a weekend looks like for a Northern Ontario family. Seasonal.

Why I do this work

Reflections anchored in family, community, the actual reason.

Northern Ontario life moments

A hike in Killarney. A hockey game at Sudbury Arena. A summer afternoon on a Northern lake.

Localized always. Never generic provincial content.

Every market post answers a Northern Ontario question. Sudbury housing market update, prices, inventory, what is moving. Ontario first-time buyer programs explained for Sudbury buyers specifically. Rural versus urban Northern ON, what the financing differences look like. Seasonal market patterns in Sudbury, spring market, summer quietude, fall buyers.

BoC formula. Here is what today's rate decision means if you are buying in Sudbury or Northern Ontario. One paragraph. Specific. Calm. No alarm.

Four platforms. One *Good Fit* voice.

FACEBOOK · PRIMARY

Community, family content, client stories, market updates. Northern Ontario demographic is strong on FB. Local Sudbury groups, community shares. Longer posts work here.

INSTAGRAM

Visual Northern Ontario identity. Landscape, community, lifestyle. Real imagery, not stock. Shorter captions. Reels for quick market takes and behind-the-scenes family content.

LINKEDIN

Professional and referral. Sudbury Realtor community (key referral source), financial advisors, HR at Glencore, Vale, school boards, Health Sciences North. More professional, still carries the Good Fit philosophy.

GOOGLE

Northern Ontario SEO. "Sudbury mortgage broker," "Northern Ontario first-time buyer," "Sudbury FHSA." Rico owns these terms. Evergreen content: program guides, market explainers, Good Fit educational pieces.

WHAT MAKES RICO DIFFERENT

1. **The philosophy is real.** Good Fit is how Rico makes decisions. The content proves it every time a client scenario shows the "best rate" was not the right answer.
2. **The geography is specific.** No other broker is producing genuinely Northern Ontario-specific content with this consistency. Rico owns the Sudbury market by being the only voice actually talking about it.
3. **The community roots are authentic.** Not a broker who moved to Sudbury for the market. Someone whose family and community are here. That comes through.

W H A T T H I S A V O I D S

A clear filter for what stays out.
This is what Rico does not do.

- × "Best rate in Ontario" posts. Rate obsession is what every other broker leads with. Rico does not.
- × Toronto starter-condo content. Aspirational Southern Ontario framing that does not match the buyer Rico actually serves.
- × "Here is how to break into the market" panic content. Northern Ontario is not anxious about homeownership the way the GTA is.
- × Generic provincial content with no Northern Ontario lens.
- × Performative family content. The family posts exist because they are true. They do not exist as a strategy.
- × Corporate broker speak on LinkedIn. The Good Fit voice carries through on every platform.
- × Stock photos that could be anywhere. Northern Ontario imagery is real, not borrowed.
